

IN THE ABSTRACT OF THE DISCLOSURE:

Please amend the Abstract of the Disclosure to read as follows:

A circuit arrangement for signal processing in a receiver and/or transmitter of a radio system, wherein the circuit arrangement nodes (~~304, 306, 308, 310, 312, 314, 316, 318, 320, 322~~) are arranged to execute at least one operation~~[[, the]]~~. The circuit arrangement ~~comprising~~ comprises means (~~304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 326~~) for dividing at least one of the signals or signal components according to the one or more predetermined division criteria for signal classes~~[[,]]~~ and the circuit arrangement ~~comprising~~ comprises means (~~304, 306, 308, 310, 312, 314, 316, 318, 320, 322~~) for executing predetermined operations signal-classwise.
